

Eight Easy Safety Tips for Driving in the Rain

1. Check your wiper blades before the rainy season begins.

2. Turn your headlights on for greater visibility during the rainy weather.

3. Give yourself more time for heavy traffic due to weather.

4. Keep a safe distance between you and the vehicle in front of you.

5. Obey the speed limit and drive slower in the rain. Remember the roads become slick when wet.

6. NEVER drive through moving water. "Turn around, Don't Drown."

7. If you hydroplane:
 - Do Not Brake—this may cause your vehicle to skid or spin.
 - Take your foot off the gas and keep your wheel straight until you regain traction.

8. Avoid using cruise control.
