# Library WiFi Certificate Procedure – Apple iPhones, iPads, and iPod Touch

1. Connect to public WiFi Network

2. Open the **Safari** web browser and go to
   http://172.30.101.15/ssl/ca.der
   When you access the site, it will ask you want to open Settings. **Allow** this
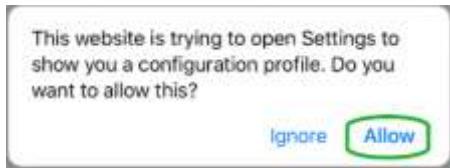

3. **Install** the profile
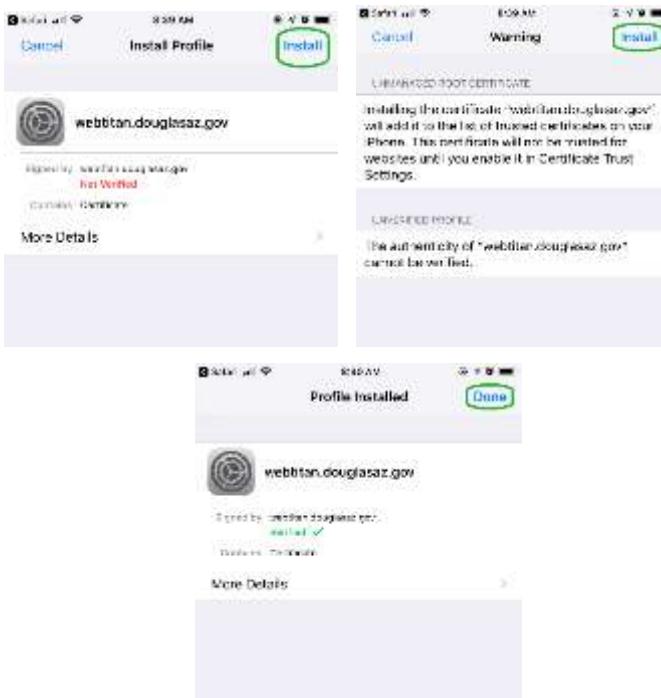

4. Press the Home button and then go into **Settings>General>About.** Scroll to the very bottom of the About menu and select **Certificate Trust Settings.**

5. Switch the **webtitan.douglasaz.gov** on and press **Continue** when prompted with **Root Certificate**. The certificate is now enabled and you are now ready to use the Library's WiFi network in its full capacity. Enjoy!
