Library WiFi Certificate Procedure – Windows
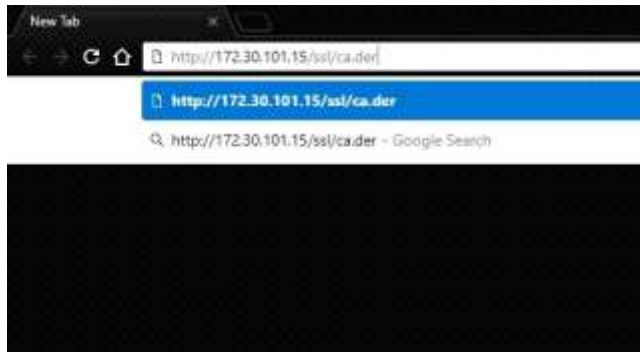

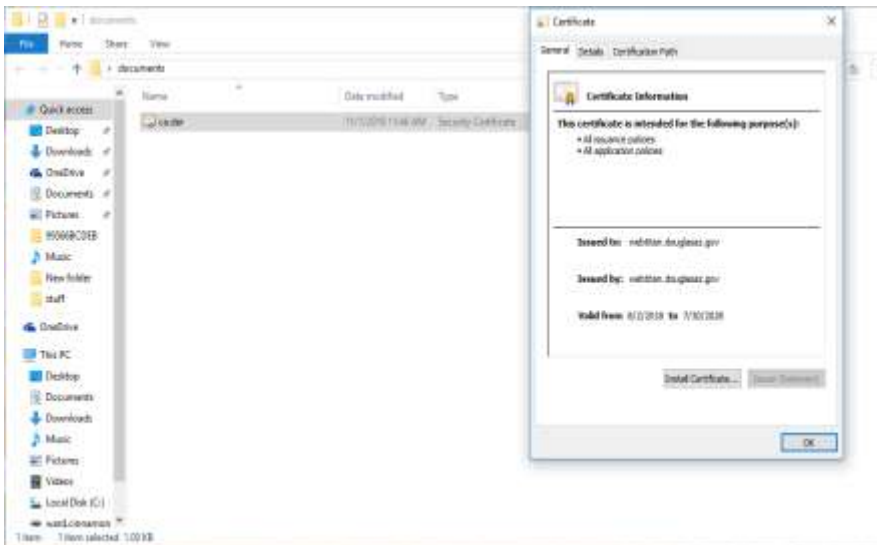

1. Connect to public WiFi Network

2. Open your preferred Web Browser, type http://172.30.101.15/ssl/ca.der into the address bar, and press enter. You will be prompted to save the **ca.der** internet certificate. Please save the certificate in an easily accessible location, such as your desktop or downloads

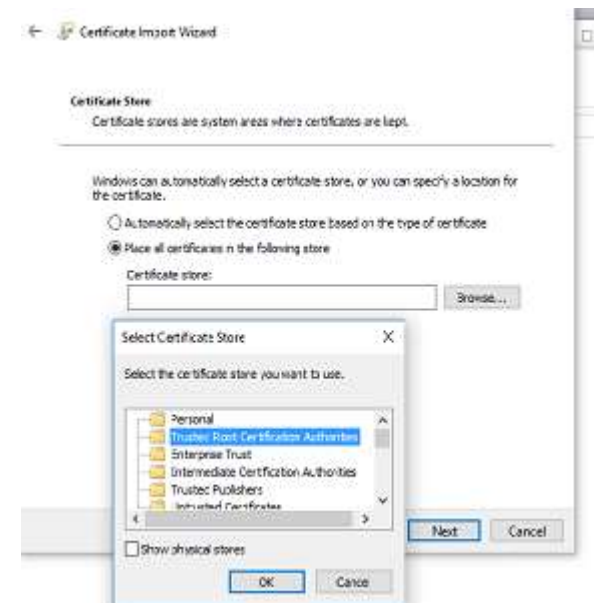

3. Got to the download (downloads, documents, or desktop likely) location, and open the certificate. In the dialog that appears choose install certificate.

4. The certificate import wizard will start. Chooses local machine and next.

5. The Certificates window will open. Click the Trusted Root Certification Authorities entry and press ok, then press next and finish. At this point the certificate will be installed and the web accessible.

← Certificate Import Wizard   ×

Completing the Certificate Import Wizard

The certificate will be imported after you click Finish.

You have specified the following settings:
