

## CITY COUNCIL REPORT

**DATE:** December 8, 2020  
**TO:** Mayor and Councilmembers  
**Cc:** Dawn Prince, Interim City Manager; Leadership Team  
**FROM:** Kraig Fullen, Chief of Police  
**SUBJECT:** Changes to Noise Ordinance and Enforcement

The purpose of this report is to clarify the recent changes to the Noise Ordinance under section 8.28 of the Municipal Code and to outline enforcement of the ordinance.

### **DISCUSSION:**

Changes: The language in the code was updated to provide clarification on what constitutes “unreasonable noise”; spell out the general prohibitions and specific prohibitions; general exemptions and temporary exemptions; name responsible parties and method of enforcement. The following is a summary of the more notable provisions. Please refer to the full version of the ordinance for additional details (attached).

Under General Prohibitions there are two applications:

1. Any loud, unnecessary, or unusual noise that is excessive, disruptive, and/or annoying; **and**
2. Is continuous or intermittent for a period of at least fifteen (15) minutes (this is enforceable at any hour)

**OR**

3. Occur after 10:00 p.m. but before 6:00 a.m.; **and**
4. Are plainly audible beyond the property line of the property on which conducted; **and**
5. Disturbs the peace and quiet of a neighborhood or a reasonable person of normal sensibilities or special event (this is enforceable only during the time noted)

A complaining member of the public shall not necessarily be required to appear in court before a person may be found responsible for a violation. An anonymous report is sufficient to take enforcement action under either of these two applications.

Under Specific Prohibitions there are a number of provisions that prohibit sound amplification systems in or on a vehicle or outdoor speaker that by volume or vibration (bass) can be heard or

felt at a distance of fifty feet from the source. Specific Prohibitions are enforceable at any hour as witnessed by the officer.

There are General Exemptions which allow for noise associated with planned activities of schools or community organizations; parades, concerts, festivals and fairs; athletic, musical or cultural activities; construction, repair, remodeling.

There are also Temporary Exemptions that can be granted by the City Manager or designee for special events or situations.

Enforcement: The ordinance became effective on 11/14/2020.

B. Officers or agents of the City responding to a complaint under the provisions of this section may:

1. Inform the violator(s) of the violation and seek to gain voluntary compliance;  
**or**
2. Issue a civil citation; **or**
3. Issue a criminal citation for a third or subsequent violation occurring within a one-hundred twenty (120) day period.

Upon the first observation/report of a noise complaint, we are providing a one-page summary of the provisions of the ordinance (English one side, Spanish on the other) which contains the link to the full version, along with a verbal warning that a second call/occurrence within a 120-day period will subject them to a citation. The penalty is \$100 for the first violation, \$250 for the second and a third violation becomes criminal with a fine of \$500. Once the 120-day period has expired for a given location, we will start the enforcement process over, starting with a verbal warning and progressing to a citation; unless circumstance warrant otherwise.

### **RECOMMENDATION / CONCLUSION:**

This report is for information only.
